

## Lucis Flux: Exit/Enter

### 1. Who am I

We are the diamonds stuck in the dirt  
Deep roaring tide underneath us resides  
Slowly surrounding you like pink chiffon  
While a dance rolling by dares a kiss in the night

Soothed by the fire in your eyes  
Lit by the fire in your heart  
Die to the fire of your mind  
Always you guide to "Who am I?"

Thousands of flowers rain from the sky  
Disappear before they touch the ground  
All shapes and colors slowed by the hand divine  
Who sings the imagined lullaby?

Soothed by the fire in your eyes  
Lit by the fire in your heart  
Die to the fire of your mind  
Always you guide to "Who am I?"

The horses running wild inside our ancient mind  
Threatening to stampede the signs  
That point us to a way where life will survive

Who is the doer, who am I?  
Who is the thinker, who am I?

### 2. To Learn to Live with You

When will you see that nothing can stop us now?  
What will it take to sever your world of doubt?  
A million rivers flow down  
From the springs of a cosmic town

To learn to live with you  
To live with you  
Tones of grace heal the race  
To learn to live with you  
To live with you  
Keeping pace with our new rising sun

You bring a dark cloud  
And you cast your shadow when you come around  
I felt your rainbow with my mind  
But your good intentions and advice  
Only leads to blasphemy of a separate line

To learn to live with you  
I turn on hate  
Seal our fate  
To learn to live with you  
To live with you  
Keeping pace with our new rising sun

### 3. Burning Star

Before you jump straight into her arms  
The silent fears start sounding alarms  
Tempting fate when a rose colored dream  
Leaves you warm and vulnerable, child

And when you stare at the pain of love  
You wonder how much you can take on  
To embrace it alone and discreet  
As she longs and dies for you, child

It took her so long  
To shape her burning star  
At time of dawn  
Are you her burning star  
She won't say no...

It takes a steel plated shield of resolve

Held in front while you're sent to the dogs  
To receive all the hate from the state  
It has long prepared for you, child

It took her so long  
To shape her burning star  
Standing so tall  
Are you her burning star  
She won't say no...

In disguise our reckoning comes  
Will we share the future as one?

She won't say no  
She won't say no to you

#### 4. Say it Again

Don't say it again  
Don't wanna hear you say you love me  
Don't say it again  
Don't wanna hear you say you love me

Don't say it again  
Don't wanna hear it again

Come and be my queen tonight  
Open lines if you want to  
Heart to heart our love's alive  
Show me and I will not ask you twice

Don't say it again  
Don't wanna hear it again

You say "I love you"  
As you turn to leave the room  
Are you trying to convince yourself  
Or get me to say "I love you, too"?

Words from the heart  
Make the world sing  
When they're overused  
They don't mean a thing  
Sentimentality, shallow opacity  
Action with feeling's the way to reality

You gotta show me, baba  
You gotta show me you mean it

Touch me  
Kiss me  
Love me

Come out of your room  
And make some time for us  
Get out of your head  
It's the little things that build trust

Come on, say it again  
Come on, angel, say you love me  
I wanna hear it again  
I wanna hear you say you love me  
Come on, say it again  
'Cause I truly love you, baby  
'Cause I truly love you, baby

Touch me  
Kiss me  
Love me  
Show me....

## 5. Take Your Hand

Today I woke up to a different kind of world  
Saw the people rise up, they won't take it anymore  
She was feeling kind of lonely when I she asked me if I wanted to dance  
The sun still shines, and the birds still sing  
Though my house was crushed by the wind and the rain

But I know that I could live a life of dignity if given a chance

As our love threatens to implode  
I turn from experience back to the innocence  
Like a child of old  
I will take Your hand

I'm nowhere  
An orphan in this world  
Nowhere to rest my head as the stories are spun  
I'm nowhere  
Swimming in a sea of lies  
Steeped in self-righteousness while the people needlessly die

Though deception floods our brains  
Drown in projection and mists of the shadow  
With You we'll find our way  
When we take Your hand

The soul brings the sword  
From the higher mind  
Cuts through to the roots of economic malaise  
And makes room for the light

No, I will not curse the day  
As the facade is stripped away  
My neighbor I will not shame  
Like the hypocrites of blame  
No I will not cry, you see  
On the road to destiny  
Through pain and joy, You lead  
I will take Your hand

Come on love,  
Don't give up  
Come on and share a little piece of your heart

## 6. The Kids and the Architect

When he wakes up there's no morning

She's not waiting for her moment to come  
All the lamps fall from the neon sky  
When he walks by

She steals the day  
Back from the night  
He drinks the poison and elixir of new life  
Last night in Detroit  
The Teacher called  
Arrested, saw her fright wasn't what she thought it was  
Through all the trials she's won  
His heart reveals a warrior through his eyes

The Architect  
Of the plan of  
World transformation calls to action all of us  
On fire  
He heals and trains  
The instruments and agents sent to spark the change  
Through suffering has come  
Realizations of the need to rectify

## 7. Daring Eyes

Steady resilience of life within  
Bursting forth orderly and slow  
They cut you down but you refuse to yield to ugliness  
Always reaching for the sun

Elegant, you open to the breeze  
Surrendering to the world around you  
Determined and confident, you emerge from deep foundations  
Breathing out your silent song

The bridge between us now revealed  
That ignorance blinded us to  
So caught up in our everyday desires while you kept watching  
Waiting, working within the law

Emptiness cannot be named  
Creation moves, stillness remains  
The urgency we feel to change is tempered by the patience  
Of the One whose game we play

Inside daring eyes  
The pictures in my mind, I will defy  
Realign  
Let it die  
The silence will abide when realized
